

Biodiversity

Indicator name

Crops

Different crops

Monoculture

Genetic diversity

Crop rotation / intercropping plan

Crop rotation / intercropping area

Adapted seeds

Saved seeds

GMO free policy

Seed type

Organic seed bank

Plant protection

Wild plants

Biodiversity (plants)

High biodiversity / protected areas

Impacts on high biodiversity / protected areas (plants)

Ecosystem enhancing practices

Set aside area

Land use and land cover changes

Plant and wild species practices

IUCN Red Listed plant species

Animal Husbandry

Handling practices

Livestock inventory

Natural diet

Land-carrying capacity

Stock density

Manure management

Animal health practices
Veterinary drugs
Appropriate conditions
Mutilation and dehorning practices
Animal husbandry non-compliance
Breeding practices
Genetic diversity
Adaptation to local conditions
Natural Habitat
Biodiversity (animals)
Animal and wild genetic diversity practices
Ecosystem connectivity
Impacts on high biodiversity / protected areas (animals)
Habitats protected or restored
IUCN Red Listed animal species
