

Climate

Supply chain level

Energy Use

Energy regulations and policies

Energy Saving Practices

Energy consumption within organization

Energy consumption outside of organization

Energy intensity

Energy reduction initiatives

Reductions in energy consumption

Transporting practices

Environmental impacts of transporting

Energy Source

Renewable Energy Practices

Resources in the energy mix

Renewable energy produced on-site

Emission reduction

Emissions regulations and policies

GHG Mitigation Practices and Air Pollution

GHG emissions Scope 1

GHG emissions Scope 2

GHG emissions Scope 3

Carbon Footprint per unit

GHG emission sources

Other air emissions / pollutants

GHG emissions and air pollutants reduction initiatives

Reductions in GHG emissions and air pollutants

Avoidance practices of contamination via air
